REFLEX SERIES®

Apple® iPhone 4™

APL7-I4UNI

ADAPTIVE PROTECTION

The OtterBox® Reflex Series™ is ready to respond in any situation — users can dock or even drop without worry. The case is compact and lightweight yet inside incorporates revolutionary, rule-defying technology. Surrounding each device with a cushion of air, the Reflex Series flexes upon impact and rebounds to its original form. Focused on protecting the occupant, just like the crumple zone of a car, this case not only takes a hit but recoils and springs back, ready to protect again and again. Find maximum OtterBox protection in the smallest, most slim fitting form.
